Integrity and sustainability are key elements of Siegfried’s corporate strategy, and they are integrated in our daily work. Just as we hold ourselves to the highest standards, we expect the same commitments to be shared by all parties along our supply chain. To reinforce this commitment, we require that our Suppliers uphold these standards within their own operations and extend them throughout their supply chains. By adhering to this guideline (“Supplier Integrity Commitment”), you support us in our ambition to cultivate the most powerful network and the strongest team in the CDMO industry. For more information on our global integrity and sustainability goals, please visit www.siegfried.ch/sustainability.
