IV. Remuneration

Art. 23

¹ Subject to approval by the General Shareholders' Meeting, remuneration for members of the Board of Directors shall consist of a fixed base remuneration in cash, individual functional remuneration in cash, a fixed number of shares of the Company and a lumpsum expense allowance, all of which may be paid out by the Company or by companies controlled by it. The Board of Directors shall set the quantity of shares as well as the relevant terms and conditions, including the time of their allocation and any restrictions on transferability.

² Absent exceptional circumstances, the members of the Board of Directors shall not receive any performance-based remuneration. Any performance-based remuneration shall be made against predefined performance targets only.

³ The Board of Directors shall set remuneration amounts for individual members of the Board of Directors subject to and within the limits of the maximum total amount approved by the General Shareholders' Meeting.

Art. 24

¹ Subject to approval by the General Shareholders' Meeting, remuneration for members of the Executive Management consists of fixed base remuneration in cash as well as performance-based remuneration, all of which may be paid by the Company or companies controlled by it. The fixed remuneration in cash comprises the base remuneration and additional remuneration elements. Performance-based remuneration consists of an annual performance-based remuneration in cash as well as a multi-year employee share ownership plan, the terms of which shall be set forth in regulations to be enacted by the Board of Directors in accordance with the provisions set forth in paragraphs 2 and 3 of this Article 24.

² The amount of short-term performance-based remuneration in cash depends on the achievement of targets set by the Board of Directors over the course of a one-year performance period. The amount of the individual short-term performance-based remuneration for hundred percent target achievement (target bonus) shall be set by the Board of Directors separately for each member of the Executive Board. Targets shall be determined on an annual basis for each member of the Executive Management, taking into account his position, responsibilities, and tasks, as well as local market conditions, at the start of a one-year performance period. At the conclusion of the one-year performance period, the total target achievement, which may lie between zero and a maximum of two hundred percent, shall be determined. The effective short-term performance-based remuneration in cash shall be calculated by multiplying the total target achievement by the target bonus.

³ Long-term performance-based remuneration depends on the achievement of Company targets set by the Board of Directors (such as share price and/or key operational numbers of the Company) over a performance period of three years. Each year, at the start of a respective three-year performance period, every member of the Executive Management shall be granted a number of performance share units defined by the Board of Directors, taking into account his position, responsibilities, tasks, and local market conditions. Upon conclusion of the three-year performance period, the total target achievement, which may lie between zero and a maximum of two hundred percent, shall be determined. The number of shares that the member of the Executive Management is allocated at the end of the three-year performance period, and their value, shall be calculated by multiplying the number of performance share units granted by the total target achievement, as well as the share price on the allocation date. The Company may acquire the necessary shares on the open market or by means of issuance of new shares out of conditional share capital.

Remuneration for New Members of the Executive Management

⁴ The Board of Directors shall determine the targets, target levels, and target achievement for short- and long-term performance-based remuneration elements. In the event of a change of control of the Company, the termination of the employment relationship, or of other extraordinary occurrences, at the discretion of the Board of Directors, the targets for performance-based remuneration may be adapted, exercise conditions and periods as well as vesting periods may be shortened or eliminated, remuneration may be paid out under the assumption that targets would have been achieved, or remuneration may be forfeited, during the course of an ongoing performance period.

Art. 25

¹ The Company or companies controlled by it are authorized, with respect to any member of the Executive Management who joins the Executive Management or is promoted during a period for which the General Shareholders' Meeting has already approved remuneration for the Executive Management, to pay out an amount for this/these period(s) if the amount already approved for said individual's remuneration is insufficient.

² The amount per remuneration period may not exceed 40 percent for the Chief Executive Officer (CEO) and 25 percent for each of the remaining positions within the Executive Management, of the most recently approved total amounts approved for remuneration for the members of the Executive Management.

³ In addition to this, the Company may pay compensation to a newly appointed member of the Executive Management for any losses suffered in connection with assuming the new position as a result of forfeited vested benefits from his previous position. Such compensation may not exceed CHF 1,000,000 for the CEO and CHF 500,000 per person for the remaining members of the Executive Management.

Art. 26

¹ No member of the Board of Directors may assume more than twenty additional mandates, of which no more than five may be for publicly listed companies.

³ Not subject to these limitations are the following:

1. mandates in companies that are controlled by the Company or which control the Company;
2. mandates that a member of the Board of Directors or the Executive Management undertakes at the direction of the Company or companies controlled by it. No Member of the Board of Directors or the Executive Management may perform more than ten such mandates at companies that are not controlled by the Company or which do not control the Company;
3. mandates in associations, non-profit foundations, and occupational benefits foundations. No member of the Board of Directors or the Executive Management may undertake more than ten such mandates.

⁴ Mandates shall be deemed to fall under this provision if they constitute mandates in the supreme managing or administrative body of a legal entity that is subject to the obligation to be entered in the Swiss commercial register or a corresponding register abroad. Mandates in different legal entities under common control or owned by the same beneficial owner shall be deemed to constitute a single mandate.

Art. 27

The Company may grant loans and credit to members of the Board of Directors and the Executive Management up to a maximum of the total of their respective individual fixed base remuneration in cash. In addition, the Company may pay advances on attorney fees, court costs, and the like, up to a maximum of CHF 1,000,000 per member, in order to defend against liability and similar claims by third parties in connection with its activities performed for the Company.
